

ACTUARIAL ANALYST

Who We Are:

- Aon Benfield is the market leader in Reinsurance brokerage for Central and Eastern Europe

We are recruiting for our regional Actuarial Center of Excellence for the CEE, position based in Prague (Czech Republic).

The Role:

- Analysis of pricing, reinsurance structure optimisation and risk quantification using non-life insurance mathematics and other statistical methods
- Technical analysis and innovative insight into insurance companies, their portfolios, reinsurance contracts
- Managing / participating to actuarial projects
- Creating stochastic financial models in Aon Benfield's Financial modelling tool ReMetrica
- Regular internal, customer and reinsurer communication

Requirements:

- University degree in actuarial sciences (mathematics applied to insurance)
- Excellent communication skills (written and verbal) in English
- Knowledge of German language is a plus
- Strong application oriented technical and structural thinking
- Ability and willingness to learn and apply new methods, find own solutions
- Above-average computer skills (MS Office + other usual software)
- Flexibility and self-motivation

We Offer:

- Interesting and dynamic role in the global reinsurance industry
- Start of your career or next step in your career after first years of relevant experience
- Training to our advanced methods, including to ReMetrica, our financial stochastic modelling tool
- Opportunity to work for the market leader in the CEE
- Competitive salary and attractive benefits package
